## WORK EXPERIENCE

### SOFTWARE JUNIOR ENGINEER

#### Sutherland Global Service

Damosa IT Park, Davao City  
(2016-present)

Core Responsibility:

Responsible in designing stable and reliable databases, according to our company's needs. I am also responsible for developing, testing, improving and maintaining new and existing databases to help users retrieve data effectively. As part of our IT team, I worked closely with developers to ensure system consistency. I also collaborate with administrators and clients to provide technical support and identify new requirements. Communication and organization skills are keys for this position, along with a problem-solution attitude. This is the link of the project I've done in this company:

### FREELANCER

#### Project Development on Demand

Davao City  
(2016-present)

Core Responsibility:

I am hired on a project basis and I have done a lot of website designing and database development. Links of my output products were on Non-Disclosure Agreement and private.
